

WAGU® Slide Penstock with Rails GL

4 facings, for on-seating or off-seating pressure, suitable as throttle and flow control penstock, for mounting to inlets or outlets of chambers or basins, for grouting into structure recess or for anchor bolting to smooth concrete walls.

Designs

- ⇒ Straight sill
- ⇒ Round sill
- ⇒ Sill to be flush mounted into channel invert
- ⇒ GL1 with slide rails, single-stem type

Design Features

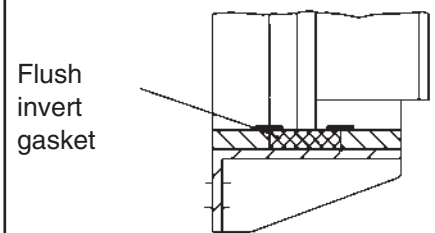

- ⇒ Welded frame of sectional steel material, with profile seal fixed laterally and at the top by means of rails and with enclosed invert gasket.
- ⇒ Door with reinforcing ribs and suspension for stem nut or extension rod.
- ⇒ In case of anchor bolting design: slide rails of plastic material fixed at the frame.
- ⇒ In case of design for grouting: slide rails of plastic material fixed at the door.

Dimensions

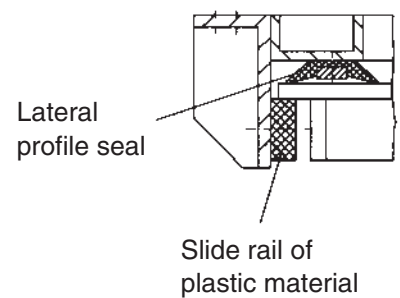

Width W x HS 200 x 200 up to 1600 x 1600
